E-mail Archival and Compliancy  
With FrontBridge MessageRite

## FrontBridge MessageRite —Electronic Message Management & Protection

FrontBridge MessageRite offers a comprehensive email and instant message archiving solution that captures indexes and stores all of an organization's electronic communication. The solution is offered as a hosted service, which significantly reduces your overall costs and management. The capabilities of FrontBridge are recognized and valued by individual employees, management, email administrators, legal departments and compliance officers and include:

- Quickly find any message based on sender, recipient or date
- Quickly find words or phrases in the subject, body or attachment.
- Eliminate mailbox size quotas and personal email data files entirely.
- Restore any previously deleted email message
- Empower everyday employees to restore their own messages.
- Reduce the local message store to 10% of its current size and curtail its growth
- Enable quicker and easier virus or disaster recovery.
- Reduce total email administration costs and time managing the system.
- Stop having individual employees perform email housekeeping.
- Provide remote access to email through an intuitive user interface.
- Seamlessly archive instant messages in addition to email.
- Provide individuals access to their instant message logs.
- Enable a terrific disaster recovery and business continuity plan for email.
- Monitor messaging as it occurs with surveillance and quarantines.
- Backup your local email system in a fraction of the current time.
- Protect the organization in legal scenarios with a complete, serialized email record

FrontBridge's Network unobtrusively intercepts all email messages, providing the unique opportunity to scan messages prior to delivery. In addition to the aforementioned benefits of archiving, our ability to intercept messages provides unique, incremental services including:

- Detect and quarantine spam or messages containing viruses.
- Analyze content of messages, enabling audit, reject, quarantine or deferred delivery of suspicious messages.
- Provide incremental virus scanning protection.
- Append company-wide disclaimers or disclaimers by employee category.
- Accept mail on behalf of other mailboxes such as ex-employees.

Compliance managers, HR managers and general counselors additionally benefit from FrontBridge. For both regulated divisions and throughout the organization, compliance opportunities include:

- Centralize policy enforcement.
  - Comply with industry archiving regulations (SEC 17a-4, HIPAA).
  - Comply with NASD supervision & monitoring rules such as 3010.
  - Prevent internal and external HR issues
  - Use one unified tool for monitoring email, instant messages and fax communications.
  - Reduce litigation risks and discovery costs.
  - Monitor and manage electronic communication with an intuitive, user-friendly web interface.

**FrontBridge Web Access user interface with search, retrieval and review capabilities for email and IM:**

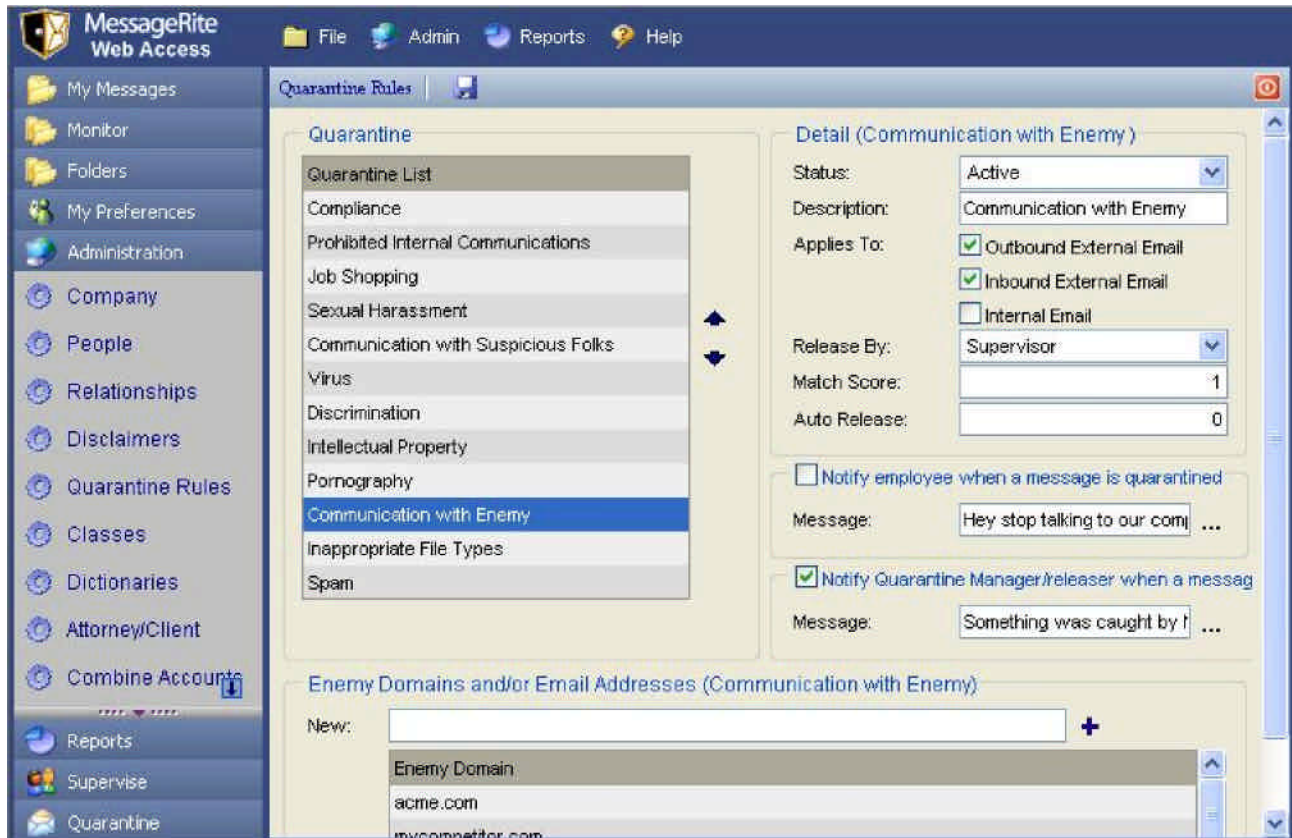

The screenshot displays the MessageRite Web Access interface. On the left is a navigation menu with options: My Messages, Monitor, Folders, My Preferences, Administration, Reports, Supervise, Review Messages, Ad Hoc Sampling, People Sampling, Class Sampling, Supervisory Terms, and Quarantine. The main area shows a list of messages under the 'Review Messages' tab. The selected message is from 'VC Buzz' to 'henry.blodget@bogusfinancial.com' with the subject 'Wi-Fi Planet Conference & Expo \* March 16-18 \* Toronto, Canada'. A yellow warning banner indicates: 'This message matched one or more supervisory terms: profit'. The message details are as follows:

Sender	Recipient	Subject	Message ID
Grubman, Jack	Blodget, Henry	Search Engine Repo	henry
Grubman, Jack	Blodget, Henry	VC Buzz	henry
Grubman, Jack	Blodget, Henry	ClickZ E-Mail Marketi	henry
Grubman, Jack	Blodget, Henry	MessageRite HR	Henry
